

Tag 1 - Day 1

**International Congress
March 30 - April 1, 2011**

Progress in Biogas II

University of Hohenheim, Stuttgart, Germany

Biogas production from agricultural biomass and organic wastes

Hörsaal 1 - Lecture hall 1

exhibition + poster session + field trips

organised by   

www.progress-in-biogas.com

Moderation: Michael Köttner

08:30	Prof. Dr. Dr. h.c. Hans-Peter Liebig University of Hohenheim GERMANY	Eröffnung - Opening speech
08:45	Max Reger Ministerium für Ländlichen Raum, Ernährung und Verbraucherschutz Baden-Württemberg, Abteilung Waldwirtschaft, Landesbetrieb ForstBW GERMANY	Eröffnung - Opening speech
09:00	Michael Köttner IBBK Fachgruppe Biogas GmbH GERMANY	Eröffnung - Opening speech
09:15	Frank Scholwin German Biomass Research Centre (DBFZ) GERMANY	Biogas in Europa - Biogas in Europe
09:40	Shikun Cheng University of Science and Technology Beijing, Centre for Sustainable Environmental Sanitation CHINA	Biogasentwicklung in China: Internationale Zusammenarbeit zur industriellen Entwicklung der Technologie - Biogas Development in China: International Cooperation to Up-Scale the Technology
10:05	Christopher Voell AgSTAR Program, USEPA Climate Change Division USA	Die "Methane-to-Markets"-Initiative und Möglichkeiten der Güllevergärung in den USA - The Methane to Markets Initiative and Opportunities for Livestock Manure Digesters in the USA
10:30	Mantopi Martina de Porres Lebofa Technologies for Economic Development (TED) LESOTHO	Biogas zur Hygienisierung in Afrika - Erfahrungen vom Aufbau eines nachhaltigen Marktes 2003 bis 2010 - Biogas for Sanitation in Africa - experiences from creating a Sustainable Market 2003 to 2010

10:55	Kaffeepause - Coffee break	
-------	-----------------------------------	--

Moderation: Michael Köttner

11:20	Maria Stenull Institute of Energy Economics and Rational Use of Energy (IER), University of Stuttgart GERMANY	Sind Biogasanlagen in Baden-Württemberg effizient? - Are biogas plants in Baden-Wuerttemberg efficient?
11:40	Ahto Oja Mõnus Minek Ltd, IEE GasHighWay Project ESTONIA	Das estnische theoretische und praktische Biogaspotential und ökonomisch praktikabler Einspeisetarif für Strom aus erneuerbaren Energien - The Estonian theoretical and practical biogas production potential and economically feasible feed-in-tariff for renewable electricity for micro CHP using biogas
12:00	Walter Stinner German Biomass Research Centre (DBFZ) GERMANY	Potenziale zur Biogaserzeugung in ausgewählten Partnerregionen der russischen Föderation (Kaluga, Orjol, Nishny - Nowgorod, Kirov, Kazan) - Potentials for biogas production in selected partner regions of the Russian Federation (Kaluga, Orjol, Nishny - Nowgorod, Kirov, Kazan)
12:20	Ian Bywater Natural Systems Limited NEW ZEALAND	Ein integriertes Energiesystem für Milchviehbetriebe - An Integrated Energy System applied to Milking Dairy Cows
12:40	Diskussion - Discussion	

12:55	Mittagspause - Lunch break	
-------	-----------------------------------	--

**International Congress
March 30 - April 1, 2011**

University of Hohenheim, Stuttgart, Germany

exhibition + poster session + field trips

Progress in Biogas II

Biogas production from agricultural biomass and organic wastes

organised by

Progress in Biogas II

University of Hohenheim, Stuttgart, Germany

Biogas production from agricultural biomass and organic wastes

Hörsaal 1 - Lecture hall 1

exhibition + poster session + field trips

organised by   

www.progress-in-biogas.com

Moderation: Ernst Berg

14:15	Viktoria Steinmüller FH-OOE F&E GmbH AUSTRIA	WINUBIO-Alternative Technologie zur Erhöhung der österreichischen Biogaskapazität - WINUBIO-Alternative technology to improve Austria's biogas capacity
14:35	Sigrid Kusch University of Stuttgart; ISWA Institute for Sanitary Engineering GERMANY	Ansätze zur Förderung der nachhaltigen Biogasproduktion in Europa - Interdisciplinary approaches to advances in sustainable biogas production in Europe
14:55	Godfrey M. Mabudo Department of Chemistry, Makerere University UGANDA	Aufgetretene Probleme bei der Verbreitung der Biogastechnologie - Problems encountered in disseminating biogas technology in Uganda
15:15	Keshav Dutta Dawadi Janta Urja Bikas Company Pvt. Ltd. NEPAL	Gründe für den Erfolg des Biogas-Programmes in Nepal - Reasons for the Success of Biogas Program in Nepal
15:35	Diskussion - Discussion	

15:50	Kaffeepause - Coffee break	
-------	-----------------------------------	--

Moderation: Ernst Berg

16:15	Walter Stinner German Biomass Research Centre (DBFZ) GERMANY	Nachhaltigkeitseffekte durch Bioenergienutzung in ausgewählten Partnerregionen der russischen Föderation - Sustainability Effects of bioenergy utilization in selected partner regions of the Russian Federation (Kaluga, Orjol, Nishny - Nowgorod, Kirov, Kazan)
16:35	Jörg Zimmer State Office for Rural Development, Agriculture and Land Reallocation of the Federal State of Brandenburg GERMANY	Auswirkungen der zunehmenden Biomasseproduktion zur energetischen Verwertung auf die Bodenfruchtbarkeit in Brandenburg - Effects of increasing biomass production for energetic utilization on soil fertility in the German Federal State of Brandenburg
16:55	Anke Bischoff Postgraduate Program Microenergy Systems, Technical University Berlin GERMANY	Biogasanlagen als Teil einer nachhaltigen Entwicklung landwirtschaftlicher Familienunternehmen in Deutschland - Ergebnisse einer empirischen Feldstudie - Biogas Plants as Part of Sustainable Development within Peasant Family Farms in Germany - Interim Results of an Empirical Field Study
17:15	Jens Lansche Universität Hohenheim, Institute of agricultural engineering-Tropics and Subtropics group GERMANY	Ökobilanz der Strom- und Wärmezeugung in Biogas-BHKWs unter deutschen Bedingungen - Life cycle assessment of heat and power generation in biogas fed combined heat and power plants under German conditions
17:35	Diskussion - Discussion	

17:50	Ende - End
